Subject: Materials

Hi Gihani,

I was having a look at the Materials variance for March and can confirm it is caused by miscodes, specifically within the Fuel Reduction Burn service (Natural Areas).

Planned Burn invoices were incorrectly coded to Minor Equipment and Supplies (72111), which is restricted to items under \$200.

The correct accounts are a combination of Major Contracts (73212), Minor Contracts (73211), and Water Truck Hire (74114), depending on the contract and nature of the spend. Journals have been prepared to recode the transactions.

Please let me know if you want me to process a reversal.

Branch Is equal to 4090000 and Expense type Is equal to 1 and LCC OP/AP Codes Is between O110 and O110
